Education

- Currently pursuing **Bachelor of Technology** at Invertis University (2023-2027), with a current CGPA of **9.3**.
- Completed **Class 12th (ISC)** in 2022 with a score of **85.5%**.
- Completed **Class 10th (ICSE)** in 2020 with a score of **91%**.

Skills

- **Programming:** Python, C, JavaScript, HTML/CSS, Node.js, Express.js, React
- **AI/ML Frameworks:** Huggingface, Bootstrap, TensorFlow, OpenCV, Keras, Pandas, NumPy
- **Tools & IDEs:** Render, Git, GitHub, Jupyter Notebook, Visual Studio Code, Tinkercad, Google Collab
- **Databases:** MongoDB, SQLite, MySQL, Firebase

Experience / Internship

Prodigy InfoTech

Web Development Intern

April 2026

Remote, India

- Developed 4 frontend web applications, a weather app, Tic Tac Toe game, portfolio website, and stopwatch, using HTML, CSS, and JavaScript
- Integrated APIs, implemented game logic, and built interactive UI components to enhance user experience and functionality
- Applied responsive web design principles and version control workflows using Git and GitHub for project management and deployment.

AICTE - EduSkills

AI – Powered Cloud Engineer

Oct 2025 – Dec 2025

Remote, India

- Completed a 10-week AI-Powered Cloud Engineer Virtual Internship (EduSkills) with AWS Educate curriculum.
- Developed foundational knowledge in ML and Generative AI, learning how AI models and cloud infrastructure integrate in real-world use cases
- Earned AWS Educate badges in Compute, Networking, Security, Databases, Cloud Operations, Cloud Computing, Storage, Serverless, plus Machine Learning Foundations and Generative AI.

Projects

Mini CRM System

Node.js, Express.js, MongoDB, HTML, CSS, JavaScript

April 2026

Individual Project

- Developed a web-based CRM system to manage customer leads, track statuses, and organize client information efficiently.
- Implemented CRUD operations, authentication, and database integration for secure lead management.
- Built a responsive dashboard interface to streamline customer data handling and workflow tracking.

Local Business Website

HTML, CSS, JavaScript, Bootstrap

March 2026

Individual Project

- Developed a responsive business website to showcase services, menu offerings, customer reviews, and contact details.
- Designed an interactive user interface with navigation, booking/contact sections, and mobile-friendly layouts.
- Implemented modern frontend styling and structured content presentation to enhance user engagement and brand visibility.

Todo Dashboard WebApp

HTML, CSS, JavaScript, MongoDB

Feb 2026

Individual Project

- Developed an interactive to-do dashboard web application to organize daily tasks with a clean and responsive user interface.
- Implemented task management features including add, edit, delete, mark complete, and task filtering for better productivity tracking.
- Integrated local storage to persist user tasks and maintain data across browser sessions.

AI Quiz Generator Web Application

Flask, SQLite, Groq API (Llama 3), HTML, CSS, Bootstrap

Jan 2026

Individual Project

- Developed an AI-powered web app that dynamically generates quiz questions based on user-selected topics using Groq API (Llama 3).
- Implemented features like user authentication, timer-based quizzes, progress tracking, instant feedback, automatic score calculation.
- Built a responsive full-stack system using Flask and SQLite for backend functionality and HTML, CSS, Bootstrap for the frontend interface.

Leadership & Awards

- My abstract paper **The Perceived Threat: AI's Impact on the Future of Software Development** got published in the ICCT 2025 conference souvenir.
- Led my team for Internal Smart India Hackathon organized by my university.

Certifications

- LeetCode Mathematical Insight Badge | AWS Educate Badges | AICTE-EduSkills Virtual Internship
- Google Cloud (Generative AI Studio, Vertex AI) | Microsoft Prompt Engineering | Simplilearn Full Stack 101
- iStudio Aptitude Test | HACKBHOO MI Smart India Hackathon Participant
